About the Book

INSPIRATIONAL HASHTAGS

100 Tweetable Moments That Speak
To Your Inner Soul

Inspiration is the process of being mentally stimulated to do or feel something, especially to do something creative. A hashtag is a type of label or metadata tag used on social networks which makes it easier for users to find messages with a specific theme or content.

Inspirational Hashtags is a collection of creative intuitive quotes that can be used universally via social media with minimal characters in mind. The inspirational declarations are meaningful and were downloaded in my spirit to share with the world.

This short-form book is filled with proverbs that came to me directly by way of revelatory delivery. Its content is filled with divine tweetable moments, timeless wisdom, and was inspired by the bible, various judicial speeches, political arguments, world events, and life experiences.

The book is designed to challenge your thinking patterns and encourages you to come up with various results that challenge your thought process. These hashtags can be used on all various social media outlets as retweets, posts, uploads, life lessons, or teachable moments.

After each hashtag#, you are encouraged to use your imagination and interpret the sayings in a way that resonates with your inner soul. You may find your responses helpful when later reflecting back to the book.

The “Born to inspire Movement” is a crusade meant for people who are relentless in pursuit of their destiny

God is raising up **bold, unapologetic women and men** with integrity to *influence, impact and inspire* people to act with candor. Leading in the Marketplace but not sacrificing our biblical principles.
